Mini Extraction Arm

Fresh Air By Design

Hood Positioning Device (HPD): Mini Extraction Arm

A flexible, self supporting extraction arm, engineered to carry a range of hood and hose combinations.

- Twin supports allow simple fixing of a solid or flexible hose in various diameters
- Support clips allow duct or hose to be easily removed for cleaning and reinstallation
- Increased surface area of all joints gives a much lighter feel to the HPD, enabling easier positioning with the HPD self supporting in its required placement
- Integrated damper allows greater control of the airflow in the extraction system
- ATEX compliant and Stainless Steel versions are available
- Standard hose diameters 75/100/125mm
- Dust & fume extraction at exactly the point you need it

All Mini HPDs are offered with a unique free 5 Year Warranty. (Return to Base)

Mounting Brackets:

- Standard Wall bracket
- Floor Stanchion
- Ceiling Bracket

Finish:

- Polyester Coated Black
- Texture Conductive Black (ATEX)
- Stainless Steel

Mini HPD Dimensions

HPD (m)	Length (mm)	A	B	C	Max Reach	Weight (Kg)	Load Capacity
1	1000	475	250	275	1000	5	1.5
1.5	1500	725	500	275	1500	6	1
